

WELL PEOPLE HAVE HEALTHY KIDNEYS.

What a New Discovery in Medical Science Proves.
THE WORK YOUR KIDNEYS HAVE TO DO.

The Discoverer of Swamp-Root at Work in His Laboratory.

SWAMP-ROOT Is the Great Remedy for Kidney, Bladder, and Uric Acid Troubles—To Prove for Yourself Its Wonderful Merits, You May Have a Sample Bottle Sent Absolutely FREE by Mail.

You can waste health without knowing it, and poor health almost always begins in the kidneys. The most important organs of the whole body are the kidneys. They filter your blood and keep it pure. People are apt to believe that kidney disease is a rare disease, but recent discoveries have proved that it is a most common trouble indeed.

And the proof of this is, that most diseases, perhaps 85 per cent, are caused in the beginning by disorders of the kidneys. You will be sick if your blood is pure, free from kidney-poison and disease-breeding germs.

Your kidneys should keep it so. That's what they are there for. And so long as they are well they perform their duties with thoroughness and dispatch. From over-eating or over-drinking. All these things weaken your kidneys and poisonous germs begin to creep into your blood.

It is at just such times that Dr. Kilmer's Swamp-Root is needed. When your kidneys are not doing their work the symptoms which prove it are: backache, headache, sediment in the urine, scalding irritation in passing it, obliged to go often during the day and to get up many times at night, dizziness, irregular heart, bladder or uric acid troubles, rheumatism, neuralgia, sleeplessness, nervousness, irritability, yellow complexion, bloating, dropsy, tired feeling, loss of energy and ambition.

Swamp-Root is a vegetable remedy, the great discovery of Dr. Kilmer (the eminent kidney and bladder specialist), and has truly marvelous restorative powers over the kidneys.

You can set your whole system right with Dr. Kilmer's Swamp-Root. The best proof of this is a trial, and nothing could be fairer than the offer to send a sample of this great discovery for trial absolutely free to any address.

To get the sample and a book that tells you all about this interesting subject, write to Dr. Kilmer & Co., Binghamton, N. Y., and mention that you read this liberal offer in the Washington "Daily Times".

If you are already convinced that Swamp-Root is what you need you can purchase the regular fifty-cent or one-dollar sizes at the drug stores.

Boggs was manipulating them, as shown. It is hinted that there may be an attempt to secure a change of venue, possibly to the Federal Court at Philadelphia.

Although Senator Kenney will say nothing concerning this second mistrial, his friends profess to be much disappointed, as they had expected an acquittal.

Commissioners' Orders. Orders were issued by the Commissioners today as follows:

That 60 feet of 12-inch sewer and one manhole be constructed on the east side of 11th Street northwest, between R and S Streets, at an estimated cost of \$15,000, chargeable to the current appropriation for main and pipe sewers.

That the west curb line of First Street northwest, between G and F Streets, be relocated and the street resurfaced, at an estimated cost of \$1,000, chargeable to the current appropriation for repairs to streets.

That the compensation of Daniel Hurlay, assistant foreman in the water department, be increased from \$250 to \$275 per day.

SENATOR KENNEY MAY GET A THIRD TRIAL.

A FEDERAL DECISION NEEDED.

District Attorney Vandegrift to Refer the Case to the Department of Justice.

Wilmington, Del., Dec. 20.—District Attorney Vandegrift stated this morning that the case of Senator Kenney will be placed before the Department of Justice at Washington. If the department so decides, then Kenney will be given another trial.

The second trial of Senator Kenney began two weeks ago. The charge of conspiracy was added to those made against him at the former trial. Boggs was the chief witness against the Senator at both trials. Kenney's defense lay mainly in the plea of ignorance of the condition of his accounts, and of the fact that

the Senator had been manipulated by Boggs.

GREAT FALLS RAILROAD NOT IN THE MARKET

NO NEGOTIATIONS PENDING

Suggestion of a Combination With the Metropolitan Pronounced Untrue by President J. P. Clark.

"Is there anything in the statement that parties are negotiating for the Washington and Great Falls Railroad in the interest of the Metropolitan Railroad Company?" was asked this morning of Mr. J. P. Clark, the president of the first named road.

"Not that I am aware of," was the reply. "Every month or so somebody approaches us with a proposition to become unpleasant extension of three years ago we required a liberal deposit as earnest money before we will even talk about it."

"Well, what about your road, buying the Metropolitan?"

"That idea is worthy of the most daring reporter's imagination. Mr. Stilson Hutchins is the holder of a large majority of both the stock and bonds of the Great Falls and naturally would be the first person seen. He told me this morning that so far as he had information the story was a mere invention."

"It would be a good thing to consolidate the two, wouldn't it?"

"I can hardly assume to judge. Of course it would be a good thing for the property owners along the Potomac to have such a service as the Capital Traction or the Metropolitan could give them but it would be a matter of finance and income, wholly, and that I could not determine."

"Is the Great Falls road in the market, at all?"

"No; no more than any other piece of property held by stocks in the market. We might consider a good offer from a thoroughly responsible source, but as we built the road with a view to developing lands along the Potomac, that feature would still be considered important."

"Then, there has been no sale as yet?"

"No; and no offers, that I know of."

EX-CASHIER STEELE RECEIVES HIS SENTENCE.

HE GOES TO THE PENITENTIARY

Must Serve Six Years and Six Months in Prison for Misapplying Bank Funds.

Philadelphia, Dec. 20.—Judge Butler in the United States District Court this morning finally overruled the motion of William Steele, formerly cashier of the Chestnut Street National Bank, who was recently convicted of misapplying of funds of the bank and making false reports to the Comptroller of the Currency, and sentenced Steele to pay the costs of prosecution and to an imprisonment of six years and six months in the Eastern penitentiary.

Steele took the sentence calmly and gave no outward sign of emotion.

There was no argument on the reasons assigned for a new trial, counsel for Steele simply stating that he had nothing to add to the reasons assigned and that he wished to submit them.

The judge then passed sentence.

TO REGULATE FARES.

An Interstate Commerce Commissioner's Views on Railroads.

(From the Philadelphia Inquirer.)

Martin A. Knapp, chairman of the Interstate Commerce Commission, was before an audience of students at the University of Philadelphia on Wednesday on the subject of "Federal Regulation of Interstate Commerce."

He was introduced by Dr. E. R. Johnson, professor of transportation in the Wharton School. Mr. Knapp has been for eight years a member of the Interstate Commerce Commission.

The speaker holds some decidedly interesting and original views which he expressed as follows:

"Regarding railroads, we are in a transition period from private to public control. The clause giving Congress power to regulate commerce among the several States, gives power to regulate the building and operation of railroads, to legislate for the safety and benefit of employees and of the public, and to regulate the relations between railroads and employees in general."

Under a general combination of such economies would result that the common carriers could maintain cheaper rates, and where they were not inclined to do so Congress would be forced to be the remedy to hold them down and on a uniform scale. Unlike the price of property, the price of a public service should be invariable and uniform, as is the price of postage stamps. Congress can fix this uniform price, then, though combination may be allowed to follow, all danger of trust or monopoly element is avoided, since the Government will be the price. For any violation of the corporation ought, like the individual is now, to be made subject to a fine or penalty."

PRIZE MONEY.

What Jackies of Old Used to Get When They Captured Ships.

(From the London News.)

The amount of the prize money gleaned by America from her recent war with Spain is comparatively trifling. Admiral Sampson is the one to be most congratulated from a pecuniary point of view, his share of the "spoils" of the Cuban blockade amounting to the respectable sum of \$75,000, to which can be added a matter of \$12,000 as the result of his efforts in the battle of Santiago.

Though Admiral Dewey gained such a complete victory at Manila, the yield in bounty only provides him with \$9,000, while Admiral Schley will have to be content with \$5,000. The commanders of the various American ships engaged will get about \$4,000 each, while those lower in grade will receive from \$300 to \$300 each.

Compared with what our irresistible jackies of old used to get, the above sums, in certain instances, fall into absolute insignificance. It is curious to note that the loser of the greatest treasure in the past was Spain; there was nothing that our seamen liked more than a war with ill-fated country, because prize money was simply waiting to be picked up.

Perhaps the largest amount of prize money which one ship has ever gained was that which Admiral Anson brought home after his voyage round the world during 1740-43. Anson captured the famous Manila galleon, which used to sail once a year for Spain laden to the hatches with treasure. The value of this "find" was \$400,000, and the division among the ship's company must have left the lowest with a fortune, though no particulars of that kind are available.

The reception of the admiral and the seamen, it is recorded, was most cordial,

and they had more friends than they knew what to do with. The treasure was drawn in triumph through the city of London in thirty-two wagons, which, according to an old naval chronicler, were preceded by a band of military musicians and guarded by a detachment of the ship's company.

Anson was often in luck's way as regards prize money. Only a few years afterward, in 1745, he captured a French fleet with upward of 200,000 in money aboard, which was carried from Portsmouth to London in twenty wagons, and conveyed to the bank in great state.

Another large sum was taken in prize money from poor Spain at the capture of Curacao, coincidently—Havana or Havana as it was called at the time, which was assaulted by both land and sea. Altogether the army received \$208,158, 11s. 4d., and the navy \$208,158, 11s. 4d., and it is interesting to give the details for the latter:
